Geoanalysis 2018

10th International Conference
on the Analysis of Geological and Environmental Materials

GEOANALYSIS 2018

8-13 July
SYDNEY

One of the leading conferences for Instrumental Geoanalysis

The International Association of Geoanalysts extends a warm invitation to you to join us at Geoanalysis 2018 to be held 8-13 July 2018 at Macquarie University in Sydney, Australia.

We are planning an exciting scientific programme showcasing state-of-the-art research and shortcourses at the interface of Earth Sciences and Instrumental Analytical Chemistry. Scientific sessions include:

- Geoanalysis for Applications in Exploration and Mining
- Metrology, Reference Materials and Method Development
- Geoanalysis for Environmental Applications
- Archeology, Archeometry and Museum Sciences
- Geoanalysis at the Micro-Nano Boundary

Sponsorship and Exhibition Prospectus available from May 2017
