One of the leading conferences for Instrumental Geoanalysis

The International Association of Geoanalysts extends a warm invitation - Join us at Geoanalysis 2018 to be held 8-13 July 2018 at Macquarie University in Sydney, Australia.

We are planning an exciting scientific programme showcasing state-of-the-art research and shortcourses at the interface of Earth Sciences and Instrumental Analytical Chemistry. Scientific sessions include:

• Geoanalysis for Applications in Exploration and Mining
• Metrology, Reference Materials and Method Development
• Geoanalysis for Environmental Applications
• Archeology, Archeometry and Museum Sciences
• Geoanalysis at the Micro-Nano Boundary

Abstract Deadline 23 March 2018
